Presented here is the report of the 1989-90 activities of the South Carolina Law Enforcement Training Council and its functioning agency, the South Carolina Criminal Justice Academy. Each year of the Academy's existence has been marked with growth and progress. It is our intent to work diligently to improve the quality of training and produce the very best in law enforcement officers. Basic Training programs continue with quality as the keyword. The In-Service training opportunities provided for the state's law enforcement community have been developed and extended on a regional basis by the South Carolina Criminal Justice Academy. In a unique partnership with the Technical Colleges and South Carolina ETV, quality In-Service programs are being provided on a consistent and economical basis. With the continued support of the Governor and General Assembly, we will accomplish our training mission in an exemplary fashion.

Respectfully submitted,

W. J. "Rick" Johnson, Jr.
Executive Director

...making a difference in law enforcement!

HISTORY 1968-1990

The year 1968 marked the beginning of formal law enforcement training in South Carolina. That year, the state legislature appropriated \$30,000 to SLED to establish the South Carolina Police Academy. A voluntary four week basic law enforcement training program began and was held at SLED. This thirty five student arrangement soon proved to be inadequate. In 1970, the state legislature created the South Carolina Criminal Justice Academy. The Criminal Justice Academy was guided from the outset by F.B.I. veteran, Clifford A. Moyer, until his retirement in June of 1982. Moyer was succeeded by Director John A. O'Leary in September, 1982. In May of 1988, W. J. "Rick" Johnson, Jr. became the new and current Director.

The construction of the 6.0 million dollar Academy was started during the administration of Gov. Robert E. McNair and was financed by state and federal funds; the latter was provided by LEAP and the Highway Safety Program. Classes began in 1972 at the present site. Because four weeks of basic law enforcement training were insufficient, the program was increased to five weeks in 1972, to six weeks in 1973, and later to the present eight weeks.

The Training Division of the South Carolina Department of Corrections moved into the Academy in 1972. Shortly thereafter, training for magistrates and municipal judges as well as for personnel from the Department of Parole and Community Corrections and Department of Youth Services began at the Academy. Similarly, the South Carolina Wildlife and Marine Resources Department and the South Carolina Highway Patrol regularly present instructional programs. The Department of Corrections moved its operations to the newly constructed Department of Corrections Academy in January 1988 and Youth Services moved in February 1988.

FY 88-89 included passage of revisions to the Training Act originally enacted in 1970. In the 19 year history of the South Carolina Criminal Justice Academy, this is the most massive revision to the statute governing certification and training of law enforcement officers in South Carolina. The basic change in the law is a mandatory continued training provision whereby officers' certification cards expire every three years. To be renewed, officers must participate in a specific number of In-Service training hours during the three year certification cycle. Academy staff members are now in the process of implementing the new law and regulations.

The Academy consists of two campuses. The main campus consists of 21 acres located on Broad River Road. This facility originated in 1970 and included a cafeteria, classroom space, two

dormitory wings a gymnasium and Aquarius training tank, and an administrative area. During 1979, a three-story dormitory wing and a two-story office building were added to provide additional housing and classroom space. This construction phase also included a learning resource center and a teaching courtroom equipped with remote control audio/video capabilities to record and critique courtroom activities.

During 1983, a 5,000 square foot pre-engineered maintenance support building was constructed. During FY 87-88, another 5,000 square foot pre-engineered building was constructed to house Purchasing, Printing, and Graphic Arts operations. During FY 88-89, a renovation project was completed to add an additional 4,000 square feet to the present dining area. This renovation included an upgrading of the kitchen to support the increased demands on the facility. In a unique transfer requiring multi-agency cooperation, the Academy exchanged 2 buildings and 5 acres of land that were owned by the Research and Statistics Division of the Budget and Control Board for 4 acres and 2 newly constructed facilities located approximately one-half mile west of their previous location. This enabled the Academy to maintain a continuous campus and, under a separate agreement negotiated with the Forestry Commission, allows for the transfer an additional 8 acres of land for our future needs.

The remote campus is located adjacent to the Broad River, approximately 2 miles west of the main campus. The Driving Range consists of a precision driving course that is approximately one and three tenths miles in length and a practical problems area. The practical problems area includes a crisis intervention house which has the capacity for audio/video training, other small frame houses which include a mock bar. These buildings are used to simulate robberies, domestic violence scenarios, burglaries, hostage situations, and other offenses that necessitate involvement of law enforcement personnel. The ultimate concept of this mock city is to duplicate a small town on the training site to lend authenticity to all practical exercises performed at the site. The weapons range complex consists of three small arms ranges, a rifle deck for S.W.A.T. training, a shotgun range, and other support buildings to accommodate this mission. The Academy currently has under construction a garage maintenance building and three outdoor weapons ranges to include a pistol range, an automatic pistol range (and Hogan's Alley), and a shotgun range.

During FY 1989-90, the Academy constructed a Micro-wave Tower, Studio, and Equipment Building. This project will allow the Academy to televise through ETV and DIRM Micro-wave Systems, various Tele-conferencing classes. During the year, the Academy has added an Automobile Accident Reconstruction Building in which Forensics will be taught as active investigations are being conducted.

PURPOSE

The purpose of the South Carolina Criminal Justice Academy, under the direction of the South Carolina Law Enforcement Training Council, is to provide mandated law enforcement and jail operations entry level training within the first year of employment to all law enforcement officers and jail operators in the state. A second purpose is to provide mandated In-Service training opportunities for law enforcement officers on a statewide basis. All officers in South Carolina must now receive forty (40) hours of In-Service training every three years to be re-certified. A third purpose is to provide administrative and maintenance support to other segments of the Criminal Justice System so that effective training programs may be presented to their personnel throughout the state; and a fourth is to provide voluntary judicial training to county magistrates and municipal judges. Finally, the Academy produces, in cooperation with the South Carolina Educational Television Network, a monthly television program, Crime-to-Court, for the benefit of those who cannot attend classes at the Academy and to supplement the departmental In-Service training program.

MANAGEMENT SERVICES DIVISION

Management Services provides (1) training support for departments of the various Criminal Justice Agencies using the Academy for training; (2) support for the permanent staff and faculty employed and used primarily in support of law enforcement training required by the various statutes; and (3) finance and accounting functions to account for funds received by the Council, under the Fine and Forfeiture procedures outlined in the various statutes.

The Academy Management Services Division in FY 89-90 provided logistical support for the various Criminal Justice Agencies which used the Criminal Justice Academy. The Management Services Division is responsible for the operation of a complete kitchen and a dining room facility; an officer certification and records unit; facilities scheduling; Purchasing and Fixed Assets Section; and a full Print Shop, staffed with three (3) employees and three (3) inmates.

The dining room staff prepared and served 227,622 meals during the fiscal year using 7 staff food service personnel and 15 inmate assistants. The Print Shop produced approximately 636,331 impressions each month for an annual total of 7,635,969 impressions. Purchasing processed 2,377 purchase orders in FY

89-90 and Certification maintains more than 10,000 officer files physically and on data base; approximately 700 new ones are created annually and another 6,000-6,500 are up-dated each training year.

The Finance Department provided its services to the staff and faculty by processing 2,377 purchase orders, 3,373 pay vouchers, 24 payrolls, and almost 11,000 remittance forms from the County Treasurers' Offices, and the approximately 700 magistrates, Clerks of Court and City Recorders. Personnel services were provided for some 100 permanent and part-time employees.

BUILDING SERVICES DIVISION

Building Services provides for all of the facilities which include 149,000 square feet of buildings on the 21 acre main campus and nine buildings on the 96 acres of the remote campus. Building Services also provides maintenance and support for a large fleet (approximately 60 motor vehicles) that are used for training and staff. Support for the operation of a 288 bed live-in dormitories necessitates the providing of security for 24 hours, five days a week. In FY 89-90, the Building Services staff consisted of 12 full time personnel, up to three part time personnel, and an inmate staff to augment personal services functions to offset as necessary for construction, maintenance, custodial support, various trade disciplines, energy management, and motor vehicle management for the Academy. The staff is also augmented with the use of PCC workers who are executing their court ordered community service time.

TRAINING DIVISION

To improve the knowledge and skills of law enforcement officers, Criminal Justice Training provides: (1) mandated law enforcement and jail operations entry-level training within the first year of employment to all law enforcement and jail officers in the state; (2) mandated Breathalyzer Training to requesting law enforcement agencies on an "as needed basis"; (3) In-Service and specialized training to personnel from the law enforcement agencies and magistrates' offices throughout the state; (4) all law enforcement agencies access to a training film and video tape lending library and (5) staff supervision of the local Police Department Reserve Officer Training and Certification Program.

ACADEMY-BASED TRAINING DIVISION

The Minimum Standards Training Act of 1970 required certification for all law enforcement officers having arrest powers and employed by city, county or State governments after January 1, 1972. Excluded initially from this requirement were those from departments of five or fewer officers or where the city had a population under 2,500. This law also establishes selection standards, specifying that a law enforcement officer must...

- present a birth certificate proving that he/she is at least 21 years old
- have a high school diploma or G.E.D. certificate
- pass a drivers license check proving that he/she has not, within the last ten (10) years (later changed to five (5) years), been convicted of driving under the influence of alcohol or drugs, or leaving the scene of an accident
- pass a background check which includes proof that he/she has never been convicted of a crime which carries a sentence of one (1) year, is a crime of moral turpitude and has a satisfactory credit rating
- pass a medical examination indicating that student is CAPABLE of performing physical training
- successfully complete basic law enforcement training

This Act was amended by the 1977-78 legislature to require basic law enforcement training for all law enforcement officers hired after July 1, 1978 including chiefs.

Mandatory physical fitness standards for basic students were adopted and placed in effect by council in January 1988.

Graduation ceremonies are held at the end of each basic training program. Performance points accumulated from tests are tallied at the end of each basic training period. The student having the highest overall total is recognized during graduation as the winner of the "J.P. Strom Award". Students having a 96% average or higher are also designated Distinguished Graduates. Based on scores from the Firing Range, the "Clifford A.Moyer Marksmanship Award" is recognized during graduation ceremonies.

In 1981, Jail and Detention personnel were included in the mandatory training list requiring the same qualifications as law enforcement officers.

BASIC TRAINING—For all law enforcement officers currently consists of eight weeks of instruction. Students are instructed in more than 50 subject areas. Law enforcement students must also demonstrate their abilities through various proficiency tests which demand competence in such areas as Searching and Handcuffing, Handling Juveniles, Courtroom Procedure, Traffic Citations and Handgun Safety.

JAIL TRAINING—The Jail Training program is responsible for the training and certification of all jail and detention facility personnel in the state. In addition to the two (2) week basic Jail Officer's Training program, this section is responsible for all jail specialized training programs conducted at the Academy complex and around the state on a regional basis.

RANGE OPERATIONS—The Range Division is responsible for all firearms and driver training programs conducted by the Academy in both Basic and Specialized Training. In addition, the Range Division conducts all practical problem programs for the Basic training program. The Firearms Course is designed to train the law enforcement officer in the proper use of personal weapons and their mechanics. Curriculum includes classroom lectures, shooting skills and practical exercises. The Driving Course is designed to fill an important need in training law enforcement officers in the art of professional driving, as well as to reduce motor vehicle accident frequency by improving the officer's attitude and skills. Curriculum includes classroom lectures and practical exercises.

SPECIAL TRAINING AND OPERATIONS—This Unit coordinates and manages Specialized Instructor Development and Police Communications courses. This Unit plans, coordinates, and implements In-Service training for state law enforcement agencies, as well as develops special training programs, surveys and courses throughout the year.

IN-SERVICE TRAINING DIVISION

The Field and Specialized Training Division conducts all specialized training at the Academy complex and at regional locations throughout the state including tele-conference education centers, college campuses and law enforcement agencies.

This function has filled a critical void in law enforcement training since its inception on February 15, 1983, and allows a greater number of law enforcement personnel to receive training than if they had to attend classes at the Academy complex.

In addition to the many areas and training topics conducted by this division, there are four specific program areas under the jurisdiction of this division.

ADVANCED IN-SERVICE—Offers specialized training in many areas of law enforcement; such as Officer Survival, Child Abuse Investigations, Arson, Crime Scenes, Narcotics, Photography, In-Service Legals, Law Enforcement Diving, Breathalyzer, etc.

CORE COURSES—Since the passing of the Revised Training act in 1989, all certified officers are required to receive mandatory training for re-certification. CORE courses are four (4) hour blocks of instruction of updated courses that officers have had in Basic Training.

BREATHALYZER RE-CERTIFICATION—The Breathalyzer Re-certification program, a critical aspect of continuing patrol operations, is designed to meet field training demands. Therefore, breathalyzer re-certification is conducted on a regional basis covering 4 divisions of the state, with training offered 4 times per year in each individual region. This method has proved very successful and beneficial to all agencies by reducing the amount of man hours lost and travel time saved.

CRIME-TO-COURT—ETV—A program designed to improve the knowledge and skills of law enforcement personnel is produced monthly by the South Carolina Criminal Justice Academy and the South Carolina Educational Television Network. The program has been endorsed for national distribution by the National Sheriffs' Association. In preparing the Crime To Court series, the Academy staff provides the topics and technical assistance and ETV specialists write, produce and deliver the program. Discussion leaders from across the state meet on the last Thursday and Friday of each month to view the program and receive information needed for instruction, and materials to be used by their officers for study and testing purposes. The program then is aired three times in the ensuing month over

closed-circuit television and is available to all law enforcement agencies in the state either through their department or local schools, colleges or technical education centers. In addition to closed-circuit viewing, each program is available on video tape to requesting agencies.

M.M. Degree, University of South Carolina; 15 years experience in Photography and Media Production; joined Academy staff in 1972; supervise all Audio-Visual operations to include the Learning Resources Center, Film Library, and Graphics Section.

STANDARDS AND ACCREDITATION DIVISION

The Standards and Accreditation Division is responsible for the validation of instructional content at all levels of Academy training operations; within the scope of this responsibility is the design, implementation and analysis of all testing, including test of Adult Basic Education, Basic Training, Core In-Service, and other specialized areas of content evaluation. Standards and Accreditation also provides the processes for approval of departmental In-Service training programs, as well as other external sources of law enforcement educational programs. Instructor and Investigative Accreditation and the South Carolina Reserve Officer training programs are other critical areas of unit responsibility.

TESTING—The Standards Division is also responsible for the design, implementation, analysis and validity of all testing including TABE, Basic, and Specialized areas of content evaluation. In May of 1988, the Standards Division initiated Psychological Testing as a service for any law enforcement agency to be used as an aid in the hiring process for new officers. All testing and analysis is computerized for maximum efficiency and training productivity.

RESERVE OFFICER TRAINING PROGRAM—The Reserve Officer Training program has been redesigned to provide an improved delivery system for reserve training. A new and up-to-date training manual has been developed and made available to all participating agencies. In addition, the Academy offered 4 "Basic Instructor Development" courses which were designed to train Law Enforcement Instructors to train the reserve officers. Reserve examinations for Reserve Officer candidates are offered in the field on a regional basis, covering 4 regions of the state with examinations offered twice a year in each region.

SECTION MANAGER STANDARDS AND ACCREDITATION

Bruce H. Carter

Associate, B.S. Interdisciplinary studies and M.S. Degrees, University of South Carolina; 8 years, U.S.M.C. Weapons Instructor; joined Academy staff in 1974; has provided instruction at all levels of Academy training operations.

LEGAL SERVICES TRAINING DIVISION

The Legal Services Training Division has many kinds of responsibilities, such as family Legal Instruction for all Basic Law Enforcement, specialized classes, Field Training updates and CORE Training. In addition to all facets of the criminal justice community.

CORRECTIONAL AGENCY TRAINING

Personnel of several state correctional agencies conduct a part of their training at the Academy. The Department of Probation, Parole and Pardon Services use the Academy for their four (4) week Basic class and for several Unarmed Self Defense courses. The Department of Youth Services used the Academy for several classes titled, Parole Board Training and Social Work Training. The Academy provides classrooms, housing, meals and audiovisual equipment for these programs. The Department of Corrections had one Certification class on our range.

SOUTH CAROLINA HIGHWAY PATROL

Captain Clyde F. Collins Training Officer

The South Carolina Highway Patrol Training Section is located at the South Carolina Criminal Justice Academy. The Highway Patrol has eight uniformed troopers and three civilian clerical employees assigned full-time duties at the Academy.

The Highway Patrol utilizes its own staff, supplemented by other Academy faculty, to conduct Basic Training Classes for State Troopers. Basic training classes are twelve (12) weeks long with special emphasis placed on traffic law enforcement. Accident Investigation, Traffic Laws, Court Procedures, Legals and Driving Techniques are some of the major courses taught during basic training.

The Highway Patrol develops the curriculum, schedules and instructs all In-Service training for its personnel. All curriculum and lesson plans are approved by the Standards and Accreditation Unit of the South Carolina Criminal Justice Academy.

Training of all Tele-Communication Operators employed by the Highway Patrol is also conducted by Patrol Tele-Communication Instructors at the Academy.

The Highway Patrol assists the Criminal Justice Academy by providing instructors to teach Traffic Laws, Defensive Driving and Summons Tickets to each of the Academy Basic Classes. Driving Instructors and Firearms Instructors also assist the Academy with each Basic class.

SOUTH CAROLINA WILDLIFE AND
MARINE RESOURCES DEPARTMENT

Lt. Fritz Jolly Safety and Training Officer

Since all South Carolina Wildlife Conservation Officers have statewide constabulary authority, they must be certified by the South Carolina Criminal Justice Academy. All new conservation officers attend the mandatory eight week Basic Law Enforcement Training Program at the Criminal Justice Academy, and a five week departmental training program.

Other In-Service training classes for all South Carolina Wildlife Conservation Officers include periodic review of state laws and interpretations, courtroom procedures, search and seizure, combat pistol firing and self defense tactics. Department personnel apprise officers of new or revised rules and regulations and procedures regarding fish and game laws, along with the public relations aspect of Wildlife Law Enforcement.

In addition, the in-service training has been expanded to include many of the specialized training programs provided by the field training section to include first line supervision, photography and investigators' school.

Initial training for additional Wildlife Department SCUBA (Self-Contained Underwater Breathing Apparatus) divers was undertaken at the Academy. The Aquatic Search and Rescue team periodically undergoes refresher training sessions at the pool facilities at the Academy. This squad of SCUBA trained officers, three-men-per-squad, has been instrumental in a wide scope of successful underwater search and recovery operations. They have not only aided in the recovery of drowning victims but also in locating underwater navigational hazards. In cooperation with other law enforcement agencies, they have assisted in the search and recovery of stolen contraband which has been discarded in the state's waters and have assisted in the training of divers for other agencies.

The Wildlife Department also requires certain non-law enforcement employees who have a Conservation Officers Commission to attend the Law Enforcement Special Basic class at the Academy.

In 1987, a mandatory physical fitness testing program was instituted where by all conservation officers are evaluated every six (6) months. The tests are conducted at the South Carolina Criminal Justice Academy.

The Wildlife Department's training section also conducts training classes for other law enforcement agencies such as Law Enforcement Boat Operations and Marine Navigation Radar for Law Enforcement and ATV motorcycle operations. All of these programs are "endorsed" by the South Carolina Law Enforcement Training Council.

JUDICIAL TRAINING

Mandatory Judicial Training..... Motte Talley
S.C. Court Administration
Voluntary Judicial Training..... Jeanne R. Hertzog
S.C. Justice Academy

Pursuant to Rule 35 of the South Carolina Supreme Court, each member of the unified judicial system of this state, with the exception of magistrates, must complete a minimum of 15 hours of legal education per year, accredited by the Commission of Continuing Legal Education. The Commission is authorized, pursuant to guidelines established by the Supreme Court, to determine the number of credit hours which will be given for particular courses and programs.

The Chief Justice of the South Carolina Supreme Court issued his order, dated December 30, 1981, which required magistrates and municipal judges to complete a minimum of twelve (12) hours of legal education accredited by the Office of Court Administration.

The Office of South Carolina Court Administration conducts mandatory judicial education programs for magistrates. A program of voluntary training for magistrates and municipal judges is conducted at the Criminal Justice Academy under the direction of the Judicial Coordinator. Monthly schools of one or two days duration are given on various topics within the criminal and civil jurisdiction of the magistrates. Schools on criminal jurisdiction topics are open to municipal judges. The program is accredited by the Commission on Continuing Lawyer Competence and those judges who are members of the South Carolina Bar may satisfy their mandatory continuing legal education requirements by attending the judge's school. The program is also accredited by the Office of Court Administration and magistrates and municipal judges may satisfy their mandatory legal education requirements by attending this voluntary training.

The office of the Judicial Coordinator also publishes Practice and Procedure Manuals on specific topics of law, as well as periodic newsletters discussing recent court decisions, opinions and legislation of importance to magistrates and municipal judges.

GENERAL PROVISIONS

The purpose of the Law Enforcement Officer's Hall of Fame as defined by the law which created it (S.2-25, R. 1384 of the 1974 Legislature) and set out in sections 23-25-10 through 23-25-40 of the S.C. Code of Laws is to establish a Law Enforcement Hall of Fame as a memorial to law enforcement officers killed in the line of duty.

The Hall of Fame exists to serve the State and its people by promoting a better understanding of law enforcement in the State and by offering public safety programs and activities.

Questions concerning the Hall of Fame and its activities should be directed to Ms. Jami Bennett, Directress, Criminal Justice Hall of Fame, 5400 Broad River Road, Columbia, S. C. 29210, telephone number (803) 737-8601.

SUMMARY OF ACTIVITIES

The Hall of Fame facility was completed in the Fall of 1979. Formal dedication took place in April of 1980, and the museum was officially opened to the public.

The Hall of Fame maintains plaques to S. C. Law Officers killed in the line of duty and museum displays featuring contemporary and historical aspects of law enforcement. The building is open to the public, and organized tours can be arranged for school and civic groups. The Hall of Fame also maintains a film library on topics of Criminal Justice, and these films are used in conjunction with the organized tours.

The Hall of Fame acquires and maintains historical artifacts relating to law enforcement, and documents the history of the S. C. Criminal Justice System through these artifacts. The exhibits featuring contemporary aspects of law enforcement serve to relate to the public the various trends and functions of law enforcement agencies.

The Melvin Purvis Gun Exhibit, donated to the Hall of Fame, opened in 1985. This exhibit features not only artifacts from the Purvis weapons collection, but also interpretive displays on the era of Melvin Purvis. The Hall of Fame also completed several other new exhibitions, which went on display also in 1985.

A new Hall of Fame maintenance facility was completed in the Spring of 1986. This building complements the Hall of Fame's main building and provides storage and work space for the construction of future displays.

The Hall of Fame continued its public safety programs. The year 1989-90 saw the continuation of these programs aimed at grades Kindergarten through Sixth grade. The program topics included "Stranger Danger", "Pedestrian Safety", "Substance Abuse", puppet presentations, audio-visual productions, and student discussion were incorporated into the presentations. Support literature, designed specifically to complement each program, was distributed at the close of each session. Safety Belt and Shoplifting programs continued. In addition to these programs, the Hall of Fame continued programming designed for senior citizens (crime prevention) and high schools and adults (criminal justice system and drunk driving programs.) 1989-90 also saw the addition of "P.C." to the Hall of Fame's Crime Prevention Programs. This remote controlled robot police car has been very popular with elementary school tour groups.

The Hall of Fame began an expansion/renovation project in February of 1990. A new roof was installed, and the HVAC System was replaced. The gallery addition enclosed the patio area on the J.P. Strom Boulevard side of the building. New exhibits include a display on J.P. Strom, a collection of antique toys and games with law enforcement themes, and updated exhibits on police artistry, radar equipment, communication devices, and breathalyzer equipment.

The exhibit renovation project will be completed in 1990-1991, and will feature new exhibits on moonshine stills, police uniforms and insignia, a weapons display and a vintage (1955) Highway Patrol vehicle. The Hall of Fame's expansion project has been conducted under the auspices of the Division of General Services.

As a result of this expansion, the Hall of Fame anticipates the 1990-1991 fall and spring school tour season to be the best in agency history.

In summary, the Hall of Fame provides public safety programs and tours of the Hall of Fame, maintains and collects artifacts and displays with a law enforcement/criminal justice theme, and maintains a memorial area to S. C. law enforcement officers killed in the line of duty.
